Billing

The billing cycle for this plan uses calendar month billing, meaning your billing cycle commences on the first day of the month and ends on the last. If you sign up part way through a calendar month you will receive a proportional bill and a proportional amount of inclusions for the remaining part of that month up to the first of the following month.

For example, if you sign up on the 15th you will be charged a pro rata amount for this period from the 15th to the end of that calendar month. As such you will receive a proportional amount of your allowances as well. Then from the beginning of the following month your first full billing cycle will commence.

The initial payment you made during the sign-up process serves as a credit on your account which will be used as a credit against your first bill.

This plan uses direct debiting and requires a valid credit card issued in your name to be used in the sign-up process. Once the initial month of your plan has been paid using this card you may opt to use BPay or Australia Post to pay for future invoices in place of a direct debit transaction. Please note that using these alternative payment methods incurs a handling fee. See [Additional Charges](#).

Your invoice is generally created between 3-6 days after your billing cycle refreshes and is sent via email by default. You can opt to receive paper bills at a charge of \$2.50 per invoice. It is advised that invoices be paid on time to avoid being charged the \$15.00 late payment fee.
