Billing

The billing cycle for this plan uses a calendar month billing, meaning your billing cycle commences on the first day of the month and ends on the last. If you sign up part way through a calendar month, you will receive a proportional bill and a proportional plan inclusion for the remaining part of that month until the first of the following month.

For example, if you sign up on the 15th you will be charged a pro-rated amount for this period from the 15th to the end of that calendar month. You will also receive a proportional amount of your inclusion for this period as well. Your first full billing cycle will then commence on the 1st of the following month.

The initial payment you make during the sign-up process is applied to your first full month of service.

Moose Mobile uses direct debiting and requires a valid debit/credit card issued in your name to be used in the sign-up process. By default, we will use this card for monthly payments going forward. Once your initial payment has been made you may opt to use alternative payment methods for future invoices. Please note that some alternative payment methods incur a handling fee. See *Payment Options*.

Your invoice is generally created 3-6 days after your billing cycle renews and is sent via email. Invoices are due 4 days after being sent to you. It is advised that invoices be paid on time to avoid being charged the \$15.00 late payment fee.
