Billing

The billing cycle for this plan uses calendar month billing, meaning your billing cycle commences on the first day of the month and ends on the last.

If you sign up part way through the calendar month you will receive a proportional access fee, a proportional plan inclusion, and if you're on a promotional plan, a proportional discount for the remainder of the month. From the start of the following calendar month onwards you will receive your full access fee, inclusion, and discount.

The initial payment you make during the sign-up process is applied to your first bill.

Moose Mobile uses direct debiting and requires a valid debit/credit card issued in your name to be used in the sign-up process. By default, we will use this card for monthly payments going forward. Once your initial payment has been made you may opt to use alternative payment methods for future invoices. Please note that some alternative payment methods incur a handling fee. See Payment Options.

Your invoice is generally created 3-6 days after your billing cycle renews and is sent via email. Invoices are due 4 days after being sent to you. It is advised that invoices be paid on time to avoid being charged the \$15.00 late payment fee.
