<sup>1</sup> Does not include nbn New Development Fee and any applicable "Special Linkage Charges" required to connect your service. See "Upfront Fee".

<sup>2</sup> nbn<sup>®</sup> targets a minimum average download wholesale speed on a cell of 6Mbps, during the busy hour of the day (typically 7pm to 11pm).

<sup>3</sup> nbn<sup>®</sup> Wireless Plus services are delivered as a "best efforts" service and have no minimum defined speed; however they are expected to achieve the potential of 25Mbps at least once in a 24 hour period.

### Information about the service

The product is a broadband internet connection provided via the nbn<sup>®</sup> fixed wireless network. This service is only available within an nbn<sup>®</sup> Fixed Wireless service area. The service comes with Unlimited data and access to our technical support service via phone, email and customer portal support ticket. Please visit <https://moosemobile.com.au/nbn/> if you have any questions about this offer.

### Upfront fee

nbn<sup>®</sup> fixed wireless services have \$0 activation. This excludes nbn New Development Fee and any applicable "Special Linkage Charges" required to connect your service, e.g. Lead-in cabling, in-building cabling, non-standard installations, subsequent installations.

New and returning customers are required to pay the first monthly charge and any applicable setup and hardware costs upfront. If activation of the service is unsuccessful for any reason, upfront charges may be refundable after you return the provided modem/router.

### nbn co new development fee

This is a \$300 fee charged by nbn<sup>®</sup> for the first-ever installation at an address. If this applies to your connection, you will be notified by us and will need to pay the fee to us as part of your up-front payment.

### Requirements and availability

nbn<sup>®</sup> fixed wireless services are only available to addresses that have been confirmed as ready for service by nbn<sup>®</sup> co, and which are designated as in nbn<sup>®</sup> fixed wireless areas. You can check your address on our website at <https://moosemobile.com.au/nbn/>.

Your address will need to have been made ready for activation by nbn co, and this may require the installation of equipment at your address.

We will advise you if the property is in a ready-for-service area but has not been made ready for activation and will arrange this as part of your order.

### Bundling and hardware

This service does not depend on a bundling arrangement with any other Telecommunications services. A router is required but not supplied by us unless you opt to purchase one at an additional cost. Alternatively, you may purchase a wireless router from another retailer of your choice. You retain ownership of the router if we supply it.

### Connection speed

We quote two speeds for our services: **Theoretical Maximum Speed** and **Typical Evening Speed**.

**Theoretical Maximum Speed** is the highest speed the service could theoretically achieve in ideal conditions.

**Typical Evening Speed**, also called **Typical Peak Speed** is the typical speed achieved by customers subscribed to this service at peak times (7pm-11pm Mon-Fri).

These speeds should be considered estimates. Actual speeds that you experience may be lower and could vary due to several factors including environmental conditions including weather conditions and wireless interference, network infrastructure, your hardware and software configuration, type and source of content being accessed (e.g. P2P games, website, download sources), and the number of other users on the network. Speeds may be slower when devices are connected by Wi-Fi. Fixed wireless connections can also be impacted by the distance or line of sight to the tower and other local conditions, and may not be able to achieve the full speed of their subscribed plan at any time of day. If you cannot achieve the full speeds of your plan and this cannot be fixed, you can move to a lower speed plan if available, or exit your plan at no cost.

nbn<sup>®</sup> fixed wireless plus services are delivered as a "best efforts" services. nbn<sup>®</sup> co have acknowledged nbn<sup>®</sup> fixed wireless services in some areas are affected by congestion and this may contribute to affected services not achieving the full speed tier.

### Self installation

Activation does not include connecting the router at the premises, and you will need to plug it in yourself. Our technical support team are available to assist via phone, email or support ticket.

### Changing plan

To view the plans that you may switch to, login to <https://simple.moosemobile.com.au>.

An upgrade is a change to any plan with a higher monthly service cost, regardless of inclusions.

A downgrade is a change to any plan with a lower monthly service cost, regardless of inclusions.

Once your plan change has taken effect, any adjustments to charges will be reflected in the first invoice issued after the plan change. Plan downgrades will only take effect at the start of the next billing cycle.

### Service cancellation fee

You must provide us notification of your intention to cancel your service. Charges will apply up to the final day the service is active. Terminations cannot be backdated.

### Fee for service

A fee for service may be charged for any works conducted by us or third-party access providers to resolve a service fault where the fault is not found to be on our or our third-party access provider's networks. This fee for service is variable and the details of the possible fee(s) will be disclosed to you prior to the works commencing or the booking of an appointment. The fee for service is subject to your approval before proceeding. If you withhold acceptance of a fee for service, it is possible that a service fault may not be able to be resolved by us or third-party providers.

### Discounts and promotions

This summary does not reflect any discounts or promotions which may apply from time to time. It also does not reflect any added services that you select whilst you have this plan.

### Data usage information

Usage is counted as the total of downloads plus uploads. You can obtain data usage information by logging into your account at <https://simple.moosemobile.com.au>.

### Carrier Grade Network Address Translation (CGNAT)

Where CGNAT is available, your IP address will default to using CGNAT, unless you specifically request to opt out of CGNAT, which may be approved by Swoop at its discretion. When opting out of CGNAT, a dynamic public IP address will be assigned to the service, however, you may request a static public IP address (at additional cost).

### Priority assistance

Priority Assistance is a service for households that include someone who has a diagnosed life-threatening medical condition and whose life may be at risk without access to a fully operational telephone service. We cannot offer priority assistance on our service or on telephony services that utilize our service. If Priority Assistance is required, you should apply through a provider who can offer this service such as Telstra.

### Acceptable Use Policy

You must comply with our Fair Use Policy (<https://moosemobile.com.au/wp-content/uploads/2024/04/MooseFairUsePolicy.pdf>) and not use your services in an unreasonable or fraudulent manner, or in a way that detrimentally interferes with the integrity of the network. We may take action if you breach the Fair Use Policy, including suspending or cancelling your service.
